ABOUT ME

Performance-driven Frontend Developer with over 3 years of experience building scalable, responsive, and user-focused web applications using React, TypeScript, and modern JavaScript frameworks. Proficient in crafting reusable components, optimizing data fetching, and collaborating with cross-functional teams to translate business goals into seamless digital experiences that drive measurable results.

SKILL SET

- **Technical :** Javascript, TypeScript, HTML, CSS, Python
- **Frontend Frameworks & Libraries:** React, Vue.js, Redux, Tailwind CSS, Bootstrap, Radix UI
- **Platforms:** Git, GitHub, JIRA, Confluence, Service Now, Netlify, Unqork, Storybook

WORK EXPERIENCE

Frontend Developer, TIAA (PUNE)

July 2023 - Present

- Engineered a multi-step proposal form application utilizing React and TypeScript to generate proposals based on asset records, successfully reducing paperwork by 60%.
- Led the frontend architecture for a Pricing Exception application, driving collaboration between sales and product teams to reduce manual reviews by 55%.
- Built 15+ reusable UI component variants in Storybook (Accordions, Buttons, Checkboxes), improving design system consistency and reducing frontend development cycle times by 35%.
- Delivered four major enterprise applications end-to-end within 3 years—including the Advisor Portal and Advisor Signup—ensuring cross-device responsiveness.
- Wrote 210+ thorough unit & integration tests using Jest achieving >80% code coverage.

Summer Intern, TIAA (PUNE)

June 2022 - July 2022

- Architected a centralized internal job portal website to streamline the recruitment process, completely eliminating reliance on legacy Excel sheets.
- Deployed an intuitive admin dashboard featuring real-time search and filter functionalities, reducing manual recruitment effort by 30%.

EDUCATION

Bachelor of Technology in Computer Science

August 2019 - May 2023

PES University, Bengaluru | CGPA : 8.23

Senior High School - PCMC

June 2017 - May 2019

Christ Academy Junior College, Bengaluru | 85% with centum in Computer Science & Mathematics

CERTIFICATIONS & RECOGNITIONS

- **Awards:** Received "Be Client Obsessed" & "Win as One" Silver Awards for continuous excellence over 2 years | TIAA
- **Meta Front-End Developer Professional Certificate** | Meta
- **Ultimate Advanced React Course & Certification** | Udemy
- **Tech Basic 101 - React JS** | TIAA
- **Agentic AI Systems** | Publicis Sapient

PROJECTS

CineScout :

- Conceived and coded a responsive movie discovery web application using React, TypeScript, and Tailwind CSS to fetch and display real-time data from a third-party movie API.
- Integrated client-side routing, advanced search capabilities, and filtering criteria to deliver a seamless user browsing experience.
- Optimized state management and API data fetching cycles, minimizing unnecessary re-renders by 40% and decreasing initial page load times by 1.2 seconds.

Youtube clone:

- Created a high-fidelity YouTube clone with 12+ modular components using React, TypeScript, Tailwind CSS, and Radix UI, achieving 90% test coverage. Developed responsive UI features including an interactive hamburger sidebar menu, video hover-play capabilities, and customized player controls.
- Executed search functionality integrated with a custom debounce hook, reducing redundant API network requests by 70% and preventing performance lags during rapid user input.

Personal Portfolio website:

- Designed and engineered an interactive personal portfolio website using React, TypeScript, and Tailwind CSS to feature projects and certifications.
- Utilized fully responsive UI grid structures to ensure seamless navigation across cross-device viewports, securing a 98% Lighthouse performance and accessibility score.
